Getting Rid of Material Waste factor

1

Equipped With plas Functions

Do you regularly waste blended "left over" in the blender in changing products? Reduce **99%** of this material waste with Matsui's intelligent blending system!

Gravimetric-Type Blender

Overview

The JCW blending system is equipped with Matsui's iplas intelligent controls. The Intelligent Control function continuously monitors usage, and automatically optimizes operation for accuracy and speed.

Features

- •Reduces resin loss with optimization software that is more than 99% accurate.
- ·High processing capacity with a maximum 145 kg/h while requiring about 1/2 installation space of previous models.
- ·Simplified controls with dialog-type settings.
- Automatic feedback detection provides the best measurement conditions for every job.
- ·Discharge all materials at a conveniently located access point .
- •Removable hoppers and feeders produce faster cleanouts and higher productivity.
