

Supports Advanced Engineering Resin Scrap

Are you accumulating runners molded from expensive resins in your warehouse?

Stop this wasteful practice by recycling these materials!

エンプラ専用ペレタイザ (Raptor22LT2)

Overview This pelletizer features a 3rd generation plasticization system called "SPIRALLOGIC". SPIRALLOGIC makes it possible to re-pelletize in situations that were previously impossible.

- Features**
- Low pressure screw of Spiral Logic prevents carbonization
 - The thermal friendly barrel (2/3 of conventional ratio) prevents yellow discoloration
 - No water tank required due to the cold cut by the combination of micro mist & air cool
 - One touch start due to automatic strand setting

factor4 Doubling Wealth, Halving Resource Use
in molding factories

Matsui, your Plastic molding partner for resource reduction, propose to achieve 'factor 4' in molding factors.

We aim to increase productivity by 4times by achieving the following, 'Save Water', 'Save Resin s' and 'save Energy'.
