Added Value UP

# Equipped With plas Functions

Are you constantly wasting "left-over" materials remained in the blender during work changes?

Reduce 99% of this material waste with Matsui's intelligent blending system!

# Gravimetric-Type Blender

#### Overview

The JCW blending system is equipped with Matsui's iplas intelligent controls. The Intelligent Control function continuously monitors usage, and automatically optimizes operation for accuracy and speed.

Contro

There are not remaing material at this position.

#### **Features**

- Reduces resin loss with optimization software that is more than 99% accurate.
- High processing capacity with a maximum 145 kg/h while requiring about 1/2 installation space of previous models.
- Simplified controls with dialog-type settings.
- · Automatic feedback detection provides the best measurement conditions for every job.
- Discharge all materials at a conveniently located access point.
- · Removable hoppers and feeders produce faster cleanouts and higher productivity.

## 2 Eliminate wasted resin
