For Elastomer Resin Runner Recycling

Having a problem in improving the recycle rate due to uneven grain size of the grinding stock materials?

Equipped with a dedicated crushing blade, Matsui's Granulator ensures a stable runner cutting process.

Low-Speed Granulator for Elastomer Runners

Overview

Equipped with Matsui's unique crushing cutter and screen-less design prevent dust generation, burr, and miss-cut, this low speed granulator, dedicated to elastomer resin runners, achieves stable and even grain size.

Features

- The straight shooter ensures to take the difficult-to-convey sprue runner to the crushing blade!
- The chamber can fully open without using a tool, allowing guick cleaning!
- Three limit switches to secure the safety of the interlock.
- The torque arm built in the vibration proof mechanism extends the life of bearings and the speed reducer (x1.5-2 of the conventional company product).
