For Transparent and Light Color Molding

Are you wasting a lot of material caused by color irregularities when changing colors?

Uniform blending immediately before molding and simple detachment mean quick color changeover!

Liquid Color Blender

Prevents color irregularities in clear, transparent molding when using in-house coloring. The complex ink handling method has been revised to achieve quick, simple and accurate color changeover.

Features

- Simple installation by clipping the liquid blender part under the collector of the mold machine.
- High-precision liquid measurement and supply!
- Ensures superior color dispersibility compared to conventional models.
- Use of a proprietary inkjet nozzle system eliminates ink dripping near the hopper inlet.
- Easy color changeovers with the pouch-type dedicated ink cartridge.

· Information in this catalog is current as of Augast 2021.

- The actual color of products may differ slightly from the printing in this catalog.
- · Product specifications and designs are subject to changes for improvements without prior notice.
- . The scope of warranty provided for Matsui MFG., Co., Ltd. machinery or devices is limited to repair or replacement of parts. Any defects of Matsui's machinery or products manufactured by using such machinery, as well as defects in product manufacturing are excluded from the warranty.

Matsui, your Plastic molding partner for resorce reduction, propose to achieve 'factor 4' in molding factors.

We aim to increase productivity by 4times by achieving the following, 'Save Water', 'Save Rasin s' and 'save Energy'.
