For light and clear molds

Having trouble with yellowing of the molded items? Avoid yellowing by preventing over drying!

Dehumidifying Dryer with Overdrying Prevention Function

Overview

An intelligent dryer with proprietary developed self-control (iplas control) function. This enables control of the amount of dry air or recycled air to suit the amount of resin used by the molding machine. Supplying resin in the optimum condition results in stable plasticizing and prevents yellowing.

[MJ6-i-G3-30]

Features

- Inverter control for optimum amount of dry air or recycled air!
- Optimum drying reduces shear resistance while plasticizing, and prevents yellowing from oxidation.
- The set molding machine hopper includes powder removal function as standard!
- Touch panel for simple configuration and operation without the instruction manual!

Halving Resourse Use

Doubling Wealth,

Matsui, your Plastic molding partner for resorce reduction, propose to achieve 'factor 4' in molding factors.

We aim to increase productivity by 4times by achieving the following, 'Save Water', 'Save Rasin s' and 'save Energy'.

If you are looking for a best solution...

factor4 solutions
