For Transparent and Light Color Molding

Using transparent light color pellets? High accuracy calculation and uniform blending allow in-house coloring!

Liquid Color Blender

Overview

The complex ink handling method has been revised to achieve quick, simple and accurate color changeover, as well as high accuracy liquid calculation and feed-ing and uniform blending immediately before molding prevent color irregularities.

Features

- Simple installation by clipping the liquid blender part under the collector of the mold machine.
- Use of a proprietary inkjet nozzle system eliminates ink dripping near the hopper inlet.
- Ensures superior color dispersibility of the ink compared to conventional models.
- Easy color changeovers with the pouch-type dedicated ink cartridge.
