

### Eliminate contamination

For Scrap Recycling

Metal contamination in granulator is bad. Catch iron foreign material at sprue feed hopper!

# Tetsu Pita (Magnetic Sheet)

7

Installs this in base of sprue runner feed hopper to catches foreign iron material by magnetic force. Protects the granulator cutter and screw and barrel of injection-molding machine against foreign material. This is available as option for Matsui's low-speed granulator.

- Screw and nut design to catch with powerful magnet.
- \*Option For Granulator

\*Because the feed hopper must be strengthened, it is only available for new and not existing units.

Added Value UP

# 7 Eliminate contamination

**Productivity UP**
