

7 Eliminate contamination

Productivity UP

There Is Possibility Of Foreign Material Contamination In All Processes!

Added Value UP

Foreign material fills in open air. Remove foreign material from the air with high-performance filter!

HEPA Filter / Nozzle With Filter

Overview

This is rationalization equipment that is essential to automatic operation of molding line. In the material conveying process, prevents dust escaping into open air. The proper arrangement for filter prevents dust and foreign material from mixing with open air.

High-performance filter unit

Features

- Filtration capacity can differ according to use.
- There is also heat-resistant specification filter in the drying line.

- The actual color of products may differ slightly from the printing in this
- · Product specifications and designs are subject to changes for improvements without prior notice.
- The scope of warranty provided for Matsui MFG., Co., Ltd. machinery or devices is limited to repair or replacement of parts. Any defects of Matsui's machinery or products manufactured by using such machinery, as well as defects in product manufacturing are excluded from the warranty.

Doubling Wealth, Halving Resourse Use

Matsui, your Plastic molding partner for resorce reduction, propose to achieve 'factor 4' in molding factors.

We aim to increase productivity by 4times by achieving the following, 'Save Water', 'Save Rasin s' and 'save Energy'.

If you are looking for a best solution...
