Preventing Static Electricity

Static electricity can lead to contamination by foreign objects. Prevent static electricity from being generated in the entire space!

Dry Fog Humidifier

Overview

Humidifies the air without making buildings or equipment wet, to limit the generation of static electricity.

Moisture controlled air also limits the amount of floating dirt or dust, and provides approx. 2°C of cooling effects in hot weather. This helps to reduce cooling loads and save energy.

Dry fog that feels just like silk, with average particle diameter of 7.5 µm!

Features

- Higher quality and less wasted work
 Humidification to reduce problems caused by dirt, hair or other contamination.
 Lowers the electrostatic potential to significantly reduce dirt adhesion. Helps boost credibility with clients.
- Better safety and work capacity
 Also eliminates the risk of ignition caused by static electricity!
- Keep employees healthy
 Humidity control helps to reduce the amount of time employees take off work
 due to colds, and creates a more comfortable work environment.

Eliminate contamination
