Water Pipes And Heat Exchangers

Added Value UP

The efficiency of a whole factory declines as corrosion builds in pipes. Keep water pipes clean and clear with the ecobrid.

### Dry cooler (ecobrid)

#### Overview

The ecobrid cooling Tower is the next generation of self contained cooling towers. There are no water quality issues with the self contained cooling towers. The heat exchanger using the air-cooling specification uses no direct water.

#### **Features**

- Free cooling system saves energy consumption.
- · No need for cooling water to be sprayed on the heat exchanger.
- Water in unit is automatically collected during warm air periods and prevents freezing, when temperatures are below 0°C.
- We suggest total water system which is the ecobrid cooling tower.

# 9 Resolve problems with water quality

- The actual color of products may differ slightly from the printing in this catalog.
- Product specifications and designs are subject to changes for improvements without prior notice.
- The scope of warranty provided for Matsui MFG., Co., Ltd. machinery or devices is limited to repair or replacement of parts. Any defects of Matsui's machinery or products manufactured by using such machinery, as well as defects in product manufacturing are excluded from the warranty.

Doubling Wealth, Halving Resourse Use

Matsui, your Plastic molding partner for resorce reduction, propose to achieve 'factor 4' in molding factors.

We aim to increase productivity by 4times by achieving the following, 'Save Water', 'Save Rasin s' and 'save Energy'.

If you are looking for a best solution...
