Making rust-resistant water

Did you find red rust in coolant of temperature controller? It may lead to molding defects and damaged equipment.

Red Rust Suppresspr for Mold Temperature Controller Cooling Water

Overview

An essential product for molding, specifically for rust prevention in circulating water of mold temperature controller.

It contributes to stable molding and prevents molding defects by suppressing the occurrence of red rust in circulating water and maintaining the initial state inside the water pipe.

Features

- Simple to use! All you have to do is put it in a tank of chiller.
- Regular cleaning keeps the effect for approximately 2 years.
- * A filter housing is used for chiller wihtout tank.

- The scope of warranty provided for Matsui MFG., Co., Ltd. machinery or devices is limited to repair or replacement of parts. Any defects of Matsui's machinery or products manufactured by using such machinery, as well as defects in product manufacturing are excluded from the warranty.

Doubling Wealth, Halving Resourse Use

Matsui, your Plastic molding partner for resorce reduction, propose to achieve 'factor 4' in molding factors.

We aim to increase productivity by 4times by achieving the following, 'Save Water', 'Save Rasin s' and 'save Energy'.
